WILL U. S. FULFILL ITS PLEDGES TO WORLD?

(By Associated Press)
Billings, Montana, Sept. 11.—Laying his appeal for the peace treaty before the people of Montana today, President Wilson declared the question of its ratification is the question whether the United States would fulfill its pledges to the people and to the world. He asserted it was not merely a treaty with Germany but a treaty effecting a settlement of the affairs of the world.

The League might not prevent all wars, the President said, but he asserted ten per cent insurance is better than none. He said he is "just as sure of what the verdict of this nation will be as if it already had been rendered" on the League and that his contact with the plain people convinced him the United States wanted the League of Nations.

Perkins Favors Profit-Sharing

(By Associated Press)
New York, Sept. 11.—Profit-sharing on a frank and fair basis was declared to be the only solution of the present industrial unrest in a speech delivered at the annual meeting of the National Civic Federation here today by George W. Perkins.

Mr. Perkins said he was convinced labor was entirely willing that capital should have its "fair reward and proper protection" but that there were too many instances in which capital had demanded "improper protection and had taken exorbitant reward."

At the same time Mr. Perkins denounced bonus system as doing more harm than good as stirring up trouble rather than alleviating it. The giving of bonuses, he claimed, caused employees to feel that the employers were making vast sum of money out of which a sop was thrown to them to bribe them into feeling kindly disposed or toward off a demand for a general increase in wages.

Kentucky Labor Endorses

The New Labor Party

Lexington, Ky., Sept. 11.—Declaring that neither of the dominant political parties had given labor its just dues, the Kentucky State Federation of Labor, in its final session of the fifteenth annual convention Wednesday, endorsed the Labor party and pledged its support toward the formation of such party in Kentucky.

John Schneider, of Louisville, chairman of the legislative committee, declared the Labor party "had great possibilities," but that how far it would go would depend on the "concessions granted labor by the two present parties."

Peter J. Campbell's recommendation that there be no strikes for six months was not endorsed by the committee on officers' reports but the committee declared all strikes now on in Kentucky justified and necessary.

Resolutions approving the Plumb plan of railroad ownership and the legislative classification of 2% per cent beer as nonintoxicating, which were proposed yesterday, were adopted. Unanimous approval of the action of the State Textbook Commission was voted and the names of the members were ordered spread upon the federation's roll of honor.

Establishment of employment bureaus thruout the state was recommended and the importation of foreign labor into Kentucky denounced.
